

Testimony of Financial Increase

Five days after Pastor prayed with me over my offering, I received an email from my company's compensation department. I had to read it three times before it began to sink in. I even called the sender to confirm it was true. The email said that I had qualified for a bonus I didn't even know I was entitled to. The email stated I was going to receive a cash award of \$19,400. After taxes & deductions, I netted \$9,300!

The second part of the email said that an additional \$19,400 was going to be invested in stock on my behalf, available in 5-8 years if I was still with the company. I have not experienced that kind of manifestation in such a short period of time after sowing a significant seed in the church. Not only did God provide for me "today" but he's providing for me in the future as well!

Last year, I gave my offering at the same time I did this year. By the end of last year, I received a bonus of \$3,500 in cash, \$3,500 in stock, and recognition from my company in front of my colleagues at the annual meeting in January. I believe wholeheartedly that it was the result of my large offering and being obedient to God's word regarding tithes and offerings. Yes, of course I'm being blessed, but the real reason is to sow into the Kingdom of God for a harvest of souls. **I believe that God is providing these finances to me so I can invest into the building of the new church at Faith Temple.** You may receive your manifestation in days, weeks, or months. Last year, mine came at the end of the year. This year it came within 5 days! If God did it for me, He WILL do it for YOU!

God is faithful!
